CODE OF POLICIES AND MANUAL OF PROCEDURE

Containing Decisions through August 26, 2016
District 5300, Rotary International

Code of Policies and Manual of Procedure

Article 1  The Code of Policies and Manual of Procedure

These are the policies and procedures of District 5300, Rotary International. They are a compendium of the decisions of past and present district governors and include current operating structure and processes. The purpose of this document is to place the policies and procedures of the district, which are currently in effect, into an integrated and comprehensive volume with the topics arranged in logical order and with consistent language. The existence of such a document will make it easier for the district governor and those charged with the responsibility to administer the policies or implement the procedures to be familiar with those currently in force, regardless of the dates of their adoption.

Modifications or additions to the policies and procedures in this manual shall be by declaration of the district governor. The district governor may propose the declaration to the board of directors for its review and input prior to making the final modification or addition to the district policies. Procedures may be changed at any time upon the direction or approval of the district governor.

A. Definition of Policy
Policies are a course of action decided upon by a group of individuals. Typically these guide future decision making until such time as policy is amended or repealed. Policies are those decisions meant to be long-lasting and act as guidelines for making future decisions that are predictable and consistent with past decisions. Policies are of four types:

1) Defining of Expectations: Policies that define desired results.
2) Defining of Authorizations: Policies that establish the authorizations and powers for committees and members for their activities and methods.
3) Defining of Limitations: Policies that establish the limitations on committees and members for their activities and methods.
4) Defining of Relationships: Policies that define how committees and members relate to the governor, members and other committees.

B. Rules of Construction
All general provisions, terms, phrases and expressions contained in this Code of Policies and Manual of Procedure (herein referred to as the Code) are to be construed in a manner that allows for the implementation of policies. Words and phrases are to be taken in their plain or usual sense, but technical words and phrases having a particular or appropriate meaning in law or in the constitutional documents are to be understood according to their technical import. As used in this Code, the words “shall,” “is,” and “are” are mandatory, and the words “may” and “should” are permissive.

C. Relationship to the Constitutional Documents
This Code is supplemental to the Rotary International Code of Policy and the Rotary International Manual of Procedure, and should be construed in harmony with them and consistent with District 5300’s Bylaws. In the event of a conflict between the provisions of the constitutional documents and the provisions of this Code, the RI constitutional documents take precedence and thereby require modifications of the conflicting provisions of the Code.

D. Amendments
Modifications or additions to the policies in this Code shall be by declaration of the district governor. The district governor may seek the input of the district board of directors prior to making modifications or additions to the Code.

The status, qualifications, responsibilities, selection, and duties of the district governor, district governor-elect and district governor-nominee are outlined in the RI *Manual of Procedures*.

**A. Governor’s Expenses**

As enumerated in the RI *Manual of Procedure*, RI provides each governor with an allocation to reimburse him/her for reasonable and necessary expenses associated with carrying out the governor’s duties and responsibilities within the district including those mandated duties performed as governor-elect. In addition to expenses that may be covered by RI, districts are urged to financially support the governor and governor-elect in the performance of the responsibilities of their offices as required by RI.

District funds therefore shall be allocated with the intention of subsidizing the costs associated with the position of district governor, governor-elect, governor-nominee, and governor-nominee-designee so the most qualified and interested Rotarians are not, because of financial burden, discouraged from becoming district leaders.

1) District funds therefore shall be available to meet the expenses of the district governor in accordance with the “DG Expense Guide” in the RI *District Governor’s Manual*. Such expenses include: travel, hotel, mileage meals, postage, lodging, telephone, FAX, internet
B. Expenses of the District Governor-Elect, the District Governor-Nominee, and District Governor-Nominee-Designee

1) Because it is in the best interest of the district that incoming governors be familiar with the clubs and leaders of the district, it is the practice of the district to reimburse the DGE, DGN, and DGND for expenses related to their positions such that they are able to visit and communicate with clubs and district Rotarians, and attend various district, zone, and RI meetings, programs and activities. The district governor-elect will develop three line items in the budget to help defray the expenses for the DGE, DGN, and DGND as recommended by the Budget and Finance Committee. Such expenses shall mirror “DG Expense Guide” in the RI District Governor’s Manual and be reasonable in the preparation for the role of governor. Once the reimbursement form is submitted with appropriate back-up materials, expenses shall be paid on a reimbursement basis, and must not represent those reimbursed by Rotary International.

2) The currently budgeted amounts are $7,500 for DGEs and $5,000 for DGNs, and $2,000 for DGNDs.

3) In no case shall the amount set aside to subsidize the out-of-pocket expenses of the DGE or the DGN or the DGNDs be greater than that of the district governor.

C. Programs, Activities and Meetings

1) District funds from these four expense accounts shall be available to meet the expenses of conducting and attending district affairs such as, but not limited to the district conference, training assembly, training workshops, RYLA, PETS, academies, institutes, symposiums, and special district programs, functions and activities as determined each year in the approved budget.

2) The date, time, location, content and format, and cost of any district program, activity or meeting shall be determined by the district governor-elect with input from the district officer, leadership or committee chair.

3) Those programs, activities and meetings to which district funds are allocated shall be: a) required by Rotary International or b) determined to be in the best interest of the Rotary clubs in District 5300 and in keeping with the district’s mission statement, strategic plan, or goals and objectives.

D. Zone and International Meetings

1) Separate from DG, DGE, DGN, and DGND expense accounts, district funds shall be budgeted to offset the costs for registration, transportation, meals and lodging for the district governor, governor-elect, and governor-nominee to attend zone and Rotary International training meetings such as GNATS, GETS, the Governors' Seminar, the Rotary
Zone Institute, zone seminars and the Rotary International Convention. The district shall reimburse expenses beyond those covered by RI for the governor-elect to attend the International Assembly.

2) Such zone and international meetings shall be indicated as line items in the approved budget.

3) At no time can the district governor or governor-elect be reimbursed for expenses associated with attendance at Zone or international events if they have already been, or expect to be, reimbursed by Rotary International as an allowable expense.

4) The district shall not reimburse expenses related to international travel for items such as participation in fellowship exchanges, National Immunization Day programs, Rotaplast missions, International RI Peace conferences, or other highly worthy but activities non-essential to the role of governor.

E. Travel and Mileage Reimbursement

1) The district will apply the same RI reimbursement rate for mileage costs for DG, DGE, DGN, and DGND. Such travel expenses will be documented in accordance with RI acceptable procedures.

2) A budget line item shall exist to reimburse executive assistant governors and assistant governors for actual and necessary mileage expense to attend district meetings or trainings whenever said travel exceeds 100 miles round trip at the request of and pre-approved by the district governor.

F. Partner Expenses

The district believes in the significant value of the support of district leaders’ partners. It is the policy of the district therefore to pay DG’s, DGE’s, DGN’s and DGND’s partners’ appropriate expenses associated with the attendance at the meetings, functions and events enumerated in this article.

G. PDG Expenses

In the development of the District Budget, an account shall be established; the sole purpose of which shall be to pay expenses of past district governors incurred in the attendance at mandatory meetings such as PETS, the Board of Directors, or such committees as are part of their required responsibility as an past district governor. Such expenses will be covered include reasonable travel and/or lodging reimbursement and shall be reimbursed as per district procedures.

Article 25  Structured Programs – Rotary International

District 5300 sponsors several structured programs of Rotary International.

A. Interact Clubs

Interact is Rotary International’s service club for students ages 12 to 18. Interact clubs are sponsored by individual Rotary clubs, which provide support and guidance, but they are self-governing and self-supporting.

Club membership varies greatly. Clubs can be single gender or mixed, large or small. They can draw from the student body of a single school or from two or more schools in the same community.

Each year, Interact clubs complete at least two community service projects, one of which furthers international understanding and goodwill. Through these efforts, Interacters develop a network of friendships with local and overseas clubs and learn the importance of:

1. Developing leadership skills and personal integrity
2. Demonstrating helpfulness and respect for others
3. Understanding the value of individual responsibility and hard work
4. Advancing international understanding and goodwill

It is the responsibility of the sponsoring Rotary club to establish the proper chartering with Rotary International and District 5300 and to annually report officers to Rotary International. This ensures club activities will be covered by Rotary International's insurance policy for the United States (international activities are not covered by this policy).

The district should maintain and update annually a listing of all chartered and operating Interact clubs within District 5300 and their sponsoring Rotary clubs.

B. Rotaract

District 5300 shall encourage individual Rotary clubs to sponsor Rotaract clubs throughout the district. Rotaract clubs are either community based or university based. This Rotary-sponsored service club for young men and women ages 18 to 30 are self-governing and self-supporting. Rotaract clubs shall follow the guidelines set forth by Rotary International.

C. Rotary Youth Leadership Awards (RYLA)

District 5300 will conduct a RYLA Program every Rotary year. The RYLA chairman and committee members will follow the guidelines of the RYLA Leaders’ Manual in the implementation of this program. Additions or enhancements will be included in the annual updating of the manual by the chairman and approved by the district governor. Non-qualified children of Rotarian participants are not permitted to participate or be on site without the explicit permission of the district governor.
RYLA will present a proposed budget to the district governor-elect for review and approval prior to the adoption of a budget at the District training assembly. RYLA expenses will be fully covered by the participation fees charged the clubs.

D. Youth Exchange
The District International Youth Exchange Committee shall consist of at least three (3) members. Three members of this committee shall be appointed for a term of three (3) years, staggered in the first year to permit one new appointment each year. District 5300 will participate in youth exchange through the multi-district exchange program called Rotary YES (Youth Exchange Services).

The district governor-elect shall appoint a Youth Exchange Officer, who serves as the chairperson of the committee, represents the District to YES, and may serve no more than three (3) consecutive years in that position.

The district shall follow the recommended guidelines outlined in the RI Youth Exchange Crisis Management Media Plan.

The district shall abide by the requirements and conditions of a Youth Sexual Harassment Protection Policy as outlined in Article 32.

**Article 26 Structured Programs – District 5300**

In addition to the structured programs of Rotary International that District 5300 plans and implements, the district has some unique programs offered to the clubs for multi-club participation.

A. Teen Leadership Camp (TLC)
The Teen Leadership Camp (TLC) is a spin-off program from the Rotary Youth Leadership Program (RYLA) and designed for 8th grade students. Approximately 30 Rotarians directly participate in the planning and implementation of the TLC program, and an additional 50 Rotarians are involved in the offsite activities related to the program.

Policies regarding the eligibility and selection of student participants continue to evolve. Among those policies are that participants must be 8th grade students, no older than 14-years-old and no younger than 12-years-old. The TLC Committee allocates participants’ slots on the basis of half male and half female. The facilitators are selected from the previous year’s RYLA participants. The Committee encourages the participation of current and former Rotary Youth Exchange students.

The district governor-elect annually selects a chairperson, who then selects members of a working committee. The Committee, working with the district governor and/or his appointed leadership, selects a venue, plans the activities in support of the program goals and objectives, promotes participation in the program at the club level, and conducts such other activities as necessary. Non-qualified children of Rotarian participants are not permitted to participate or be on site without the explicit permission of the district governor.
The program is self-supporting, and fees are determined each year and included in the district budget with balanced income and expenditure. Clubs wishing to send students submit their application forms with a fee for each student.

Goals of Teen Leadership Camp:
1) Develop an understanding of Rotary among the young participants while utilizing Rotarians as role models.
2) Provide an opportunity for RYLA alumni to practice their leadership skills as they serve as small group facilitators.
3) Recognize participants’ efforts, accomplishments, skills, and potential leadership qualities.
4) Develop leadership skills of young participants with emphasis on:
   - Self-confidence and self-esteem
   - Personal responsibility as a basis of leading others
   - Ethics of positive leadership
   - Group dynamics and peer pressure

B. Earlyact
District 5300 established Earlyact clubs patterned after Rotary International’s Interact clubs for high school and junior high school-aged students. Earlyact clubs’ membership is made up of elementary school-aged children. Clubs meet weekly or bi-weekly on school grounds, as determined by the membership. Clubs are sponsored by Rotary clubs who provide support and guidance. Each club typically has a faculty advisor or school support.

Goals of Earlyact clubs are similar to Interact clubs but at a more understandable basic level, and may include:
1) An introduction to and understanding of service and its benefits
2) Fundraising for school, local community and international causes
3) Fostering a sense of service through development of projects
4) Developing knowledge of Rotary
5) Developing communication and leadership skills
6) Building friendships

The running of a club meeting may be patterned after a Rotary club meeting including the Pledge of Allegiance, singing a patriotic song, and recitation of The Four-Way Test. Speakers may be a part of the meeting, and/or plans for projects may be discussed. Officers are selected/elected annually.

Currently, Earlyact clubs are not official programs of Rotary International, and the activities of the clubs are not covered by insurance, as a Rotary club’s or Interact club’s might be. Therefore, it is the policy of the district to have all club activities take place on campus, and limit the liability to the school or the sponsoring Rotary club.

The district should keep a listing of all Earlyact clubs on file as well as sponsoring Rotary clubs, updated annually.
As of July 1, 2010, because of the Rotary’s increasing the age range of Interact clubs to include students to the age of 12, it is recommended that Mideract clubs be changed to Interact clubs and registered as such with the district and Rotary International.

C. Multi-District Interact Symposium

The Interact Symposium is currently a three-day leadership training camp designed for Interact club members, their faculty advisors and Rotary club liaisons, and others designated by the district governor. It is hosted by participating six southern California/Nevada Rotary districts. The district governor each year selects a chairperson that represents District 5300 on the multi-district committee. Non-qualified children of Rotarian participants are not permitted to participate or be on site without the explicit permission of the district governor.

The program is self-supporting. A budget with a recommendation of cost per student is submitted to the district governor of the host district. Rotary clubs sponsor participants and submit applications with established fees.

The purpose of Interact Symposium is to provide participating Interact club leaders, club faculty advisors, Rotary liaisons and other Rotary club members with valuable information and training that will enable them to build and maintain successful Interact and other Rotary youth clubs. To achieve this purpose, the Symposium is organized around three primary components: speakers, workshops, and fellowship.

Keynote speakers from Rotary International, the private sector, and/or the participating Rotary districts will address the symposium participants on topics of interest to high school students. The speaker’s topics will reflect the international nature of the programs of Rotary.

Symposium participants will attend workshops that address the following key points:

1) Membership development and retention
2) Meeting management skills and the board of directors responsibilities
3) Team building
4) Service projects and fundraising

The plenary sessions and workshops are primarily designed to assist officers and directors of Interact clubs to be more effective and successful. They are intended to be both inspirational and practical. Each workshop and/or plenary session may, if appropriate to its topic, present Rotary projects as examples of service. Each workshop will present techniques, ideas, and specific examples of successful Interact club activities that participants can put into action in their own Interact clubs.

Interact Symposium participants will take part in various planned fellowship activities. In addition to simply being fun, these activities will develop leadership skills, foster cooperation, and encourage the establishment of lasting friendships.

The winning essay may be read at the district conference either by the student or by a reader.

F. The Four-Way Speech Contest
1) Role: This annual competition benefits high school age students by acquainting a large number of youth to the Rotary Four-Way Test demonstrating Rotary’s commitment to youth, by heightening awareness of Rotary among youth, parents, schools and community and recognizes and rewards accomplishment in the writing and giving of a speech that
incorporates *The Four-Way Test* and the annual RI president’s theme. Rotary clubs sponsor high school students who live in or attend schools within District 5300. *The Four-Way Test* was created in 1932 by Rotarian Herbert J. Taylor, and was adopted by Rotary in 1943.

2) **Composition:** The district governor selects a chairperson who encourages club participation and assists in arranging the club, group, regional and district-level competition. Four regional winners compete for the top cash award at the annual district conference.

3) **Cost:** The program is self-supporting. The monetary awards presented at the District conference come from club contributions per each sponsored contestant; therefore, the prizes depend on the number of clubs that participate.

4) **Duties:** Clubs seek qualified contestants who meet the criteria of participation and hold club-level competitions to select a single candidate. Individuals then compete at the group level based on the geographical areas covered by each assistant governor. The winner of each group proceeds to the regional level, and the winners of the 4 regional competitions proceed to the final competition.

Recordkeeping of all financial statements, reports and tax returns, and critical correspondence shall be kept in accordance with state and federal laws.

C. Audits and Budgets

1) District Reviewed Financial Statements and Tax Return
   The Rotary District 5300 treasurer annually prepares financial statements on accrual accounting basis in accordance with Generally Accepted Accounting Principles in the United States of America.

2) Authority to Exceed Budget
   The governor shall consult with the Budget and Finance Committee concerning any unusual financial conditions which might arise during the term of his district governor’s administration, and if necessary, amend the approved budget.

3) Capital Expenditures
   All fixed asset additions must be approved by the Budget and Finance Committee either in the original fiscal year budget, or subsequently by Budget and Finance Committee as an amendment to the budget. A capital expenditure shall be defined as any equipment, vehicle, or other purchase in excess of $500.

4) Internal Audit System: The Appointment and Evaluation of the Independent Reviewer
   A review is performed by the treasurer of the district governor-nominee by October of the year completed which is then presented at the district conference business meeting the following spring. The district reviewer is typically the treasurer who will take office 2 years in the future.

D. Expense and Reimbursement Process

1) The person requesting a check prepares the Check Request Form and sends it to his immediate supervisor, which is usually a committee chair or someone on the Executive Council.

2) Check requests are sent to the governor for approval.

3) The governor faxes or electronically sends the approved and signed Check Request Form (numbered in sequential order for control purposes) and the back-up information to the bookkeeper to prepare the check and record it in the financial software system.

4) The check and relevant backup is mailed to the treasurer for review and signature and mailing.
5) Checks in excess of $2500 are sent to the district governor for his/hers and a second signature.

6) The chairperson of the Budget and Finance Committee shall also be a check signer in an emergency or when the governor is not available.

7) At no time may a check to an individual be signed by that individual.

E. Investments - General Operating Account

All District moneys shall be deposited in one or more bank accounts in the name of District 5300, Rotary International.

1. Investment Policy Statement – District General Operating Account
   The Budget and Finance Committee shall establish a district general operation account.
   a. The investment objective shall be both safety of principal and liquidity.
   b. Acceptable investments will include FDIC-insured accounts and bank-quality instruments that do not exceed 90 days.
   c. The district’s operating account balance is not to exceed one-half of the current annual approved budget.

2) Investment Policy Statement – District General Reserve Fund
   The District Budget and Finance Committee shall establish a district general reserve fund.
   a. The investment objective shall be both safety of principal, liquidity and current income.
   b. Acceptable investments will include FDIC-insured accounts and bank-quality instruments with maturities that do not exceed 18 months.
   c. The district’s general reserve fund balance is not to exceed one-third of the current annual approved budget.

F. Revenues

1) Per Capita Dues
   On the basis of the proposed budget, the District Budget and Finance Committee shall recommend the amount of the per capita levy of the clubs of District 5300. The governor-elect shall present the budget to a meeting of incoming club presidents at the district training assembly for final approval by ¾ of those incoming presidents present and voting.

   The district administrator bills all the clubs semi-annually for dues using a billing invoice. The billing dates are July 1 and January 1 based on the number of members contained on the latest RI Semi-Annual Report (SAR). A “past due notice” of the balance due is sent 30 days after the original invoice to those clubs that have not yet paid.

2) Program Fees, Contest Fees, Training Fees, Registrations Fees
   Fees for contests, camps, competitions, meetings, training and any other activity of the district shall be set in advance by the committee chair in consultation with the governor-elect in advance of budget preparation for the upcoming Rotary year. The annual budget is based on revenue and expenditures from said activities.
Certain programs shall make every effort to be self-sufficient – such that the revenue derived from the activity in fees or registration, meet or exceed anticipated expenditures.

G. Procedures for the Handling of Contributions to Charitable Projects

To serve as the custodian for contributions to specific, governor-approved charitable projects/activities of Rotary International District 5300, the following procedures shall be followed. [Examples of such projects/activities include the annual district peace conference, a district-sponsored Rotaplast mission, etc.]

1) The project/activity shall be specified by the governor(s) of the year(s) for which it is to take place.

2) Any solicitation material for the particular project/activity will be reviewed and approved by the governor and the president and treasurer of the Rotary District 5300 Foundation for appropriate wording related to contributions to a non-profit charitable foundation.

3) All funds for each specific project/activity whether from individuals, businesses, Rotary clubs, or other organizations and non-profits shall be deposited into the bank account of the Rotary District 5300 Foundation.

4) Donations to the Rotary District 5300 Foundation will be sent directly to the district administrator who will deposit them into the Rotary District 5300 Foundation’s account in a timely fashion according to established protocols. Checks should be made out to the Rotary District 5300 Foundation noting on the bottom of the check the name of the specific project/activity. After each deposit the administrator will transmit to the district governor, the district bookkeeper, the district treasurer, the project/activity’s chair, and the Rotary District 5300 Foundation treasurer, a list of such deposits. Included with such list will be the names and addresses of contributors from sources other than those from district Rotary clubs.

5) A separate bookkeeping account for each particular project/activity will be set up and maintained by the treasurer of the District 5300 Rotary Foundation.

6) Funds shall be deposited into an appropriate type of account (e.g. checking, money market, interest bearing, mutual funds, CD’s, etc.) as determined by the president and treasurer of the Rotary District 5300 Foundation. In most cases funds will be deposited into a type of account such that upon demand they may easily be withdrawn. Any interest earned from such low risk instruments shall in most cases be credited to the Rotary District 5300 Foundation’s general fund account and not the project/activity’s account.

7) As required by the IRS, the president or treasurer of the Rotary District 5300 Foundation shall send the appropriate acknowledgement letters to contributors.

8) Requests for withdrawals from the Rotary District 5300 Foundation to pay for project/activity expenses shall be made to the district governor in keeping with the standard approval protocols established for all withdrawals. Such signed check requests along with appropriate back up information will then be forwarded to the Rotary District 5300 Foundation treasurer for processing.

9) Financial records of the Rotary District 5300 Foundation shall be available to any district Rotarian upon request within a reasonable amount of time that is convenient to the treasurer at a location determined by the treasurer.

10) A report of Rotary District 5300 Foundation activity shall be made quarterly to the district governor.
11) A report of the Rotary District 5300 Foundation’s previous year’s financials shall be presented annually at the business meeting of the District 5300 conference.

12) These operating procedures will be reviewed annually and modified as mutually agreed upon by the district treasurer, the president and treasurer of the District 5300 Foundation, and the district governor and/or his representative.

**Article 35  Risk Management and Insurance**

Active U.S. Rotary clubs and districts are provided with general liability ("GL") and directors & officers/employment practices liability ("D&O/EPL") insurance through the U.S. Rotary Club and District Liability Insurance Program ("Program"). The Program is financed by insurance assessments collected from U.S. Rotarians.

Note: The Program does NOT provide coverage for bodily injury or property damage sustained by a first-party insured, such as a Rotarian or volunteer.

Special event insurance shall be required and secured for those special activities of the District or clubs that are not covered under the RI umbrella policy to minimize risk and exposure.

**Article 36  District Governor Mentor Program**

A. **Goals**

It is expected that DGDs, DGNs, DGEs and DGs will participate in the district’s mentor program. A district governor mentor shall assist a member of the governors’ chain to better serve as a governor for District 5300 by:

1. Acquainting the mentee with district past-practices within their historical contexts.
2. Familiarizing the mentee with the policies and procedures of the district, RI and TRF.
3. Serving as an open-minded sounding board.
4. Recommending potential resources and talents.
5. Providing confidential counsel.

B. **Mentor Selection**

1. Mentors must be a PDG from within the district.
2. Mentors serve from the appointment of the DGD through his/her DG year; however, nothing is to preclude the mentee from changing district mentors.
3. Mentors volunteer for this role.
4. After an individual is selected as a DGD, he/she meets with the current chairman of the board of directors to discuss available PDGs who have indicated an interest in serving as a mentor.
5. The chairman of the board of directors contacts the PDG selected by the DGD to serve as his/her mentor and then announces the appointment to the board and the rest of the Tarnished Brass.
6. Though one mentor is the norm, it is permissible for a mentee to have more than one if so desired.

7. Nothing precludes a mentee from also forming informal mentor-type relationships with other PDGs, PDGs outside of the district, Zone coordinators and Rotary leaders.

8. District mentors are not compensated.

C. Characteristics of an Effective Mentor

1. Willing and able to give time and attention to the role.
2. Act as a resource, providing a variety of options.
3. Does not dwell on how he/she did “it” during his/her year.
4. Does not take over the role of the DGD, DGN, DGE, and/or DG.
5. Does not replace the Zone DGN and DGE and DG trainings but serves as a sounding board for ideas discussed at those and other trainings.
6. Develops a respectful, close, understanding relationship with the mentee.
7. Is confidential.

D. Meetings

The goal of frequent mentor/mentee meetings is to develop a working, trusting relationship in which ideas, issues, volunteer staffing, and programs can be shared, discussed and assessed.

1. Shortly after mentor selection, the mentor and mentee set up an initial face-to-face meeting.
2. Formal meetings are ideally held on a monthly basis. Additional meetings may be held on an as-needs basis.
3. Face-to-face meetings are recommended, however, telecommunicating is acceptable.
4. The mentor and the mentee will log both their formal and informal meetings and record topics covered.
5. The mentee will regularly share with the board of governors at their scheduled meetings, the topics/concepts covered since its previous meeting.

E. Mentorship Topics

As each person proceeds through the various roles leading up to and serving as district governor, one brings with him/her various understandings of the district and knowledge-levels of the specific roles and responsibilities needed when serving in this capacity. The document, District 5300 DG Mentor Syllabus (Appendix A), has been developed to identify key topics which should be included at the various stages as one advances towards the governorship.

The depth of coverage depends on the mentee’s experience and levels of understanding.

The District 5300 DG Mentor Syllabus is a guide and should be considered carefully when a mentor and mentee meet. It, however, is by no means exhaustive and should not preempt other topics or areas of interest or concern which are additionally pressing. It is also a document-in-development. The board of directors is encouraged to review it and add, modify, or delete topics as appropriate.

Adopted: August 26, 2016
Appendix A

District 5300 DG Mentor Syllabus

Suggested topics are listed by category and are not exhaustive. Additional ones may be added by the mentor and/or mentee. The row columns to the right are suggested times at which aspects of the topics might be covered.
