KOE3- The Mountain Tubing Adventure

Later this morning, you will embark on a truly unique & memorable adventure experience for everyone!

This excursion includes an exclusive access to the historic irrigation system of the former Lihue Plantation.

This ditch and tunnel system that once irrigated vast sugar crops had been unused since sugar was taken out of production in 2000.

In January 2003, Kauai Backcountry opened a section for exclusive tubing tours. This water system runs through some of the most beautiful and remote land on the island. It includes spectacular views of the mountains and Waialeale Crater.

The waters which originate near the top of Mount Waialeale, one of the wettest spots in the world, are channeled through ditches and tunnels hand-dug by plantation workers over a century ago!

The Mountain Tubing Adventure is perfect for all and in generally good physical condition. The gently flowing waters, beautiful scenery, flumes and tunnels are combined for a relaxing, fun and fascinating experience. And when we say we are unique, we mean it! This is the only eco-tour tubing activity of this type on Kauai with access to these 17,000 acres of former plantation lands.

At the end of this adventure, you may return to the hotel or choose to go on a thrilling Zip line adventure
